

(TMI Newsletter - April 12, 2013)

LETTER AND REQUEST FROM FRANCEEN

Hi Starliners and X-27 grads,

First of all, I want to give you a report on last week's Starlines program. For the first time, it was conducted at RMR. Since it was a small group, it was a more intimate experience...up on the mountain, with snow...fortunately, no power outages. In fact, we had an abundance of life force power for our journeys on Voyage 8, and participants reported that their experiences were truly transformational. Several told me it was the most powerful program they had ever attended anywhere.

We definitely experienced the presence of some of you who joined us. It was amusing to me when participants would note that they perceived others sitting in our circle in the generator room. Thank you for sharing your energies. I hope you had wonderful journeys also.

This was our 31st Starlines program. 2013 is the tenth-year anniversary of this program, and there is absolutely nothing else like it being conducted anywhere. Over the years, you SL grads have made a huge contribution to humanity and the earth by opening and strengthening so many important energetic pathways ...especially the pathway between Earth Core and the Galactic Core. I never realized when I designed this program (with strong urging and assistance from my inner Guidance Team) that this pathway would become so important. We've heard a lot about it in recent years due to Mayan and other prophecy.

In any event, because this is the 10th anniversary year (first program in Fall, 2003) TMI would like to feature it in an upcoming newsletter. TMI staff has asked me to ask you for short written or video testimonials about your experiences, or the impact of SL on your life. I know that often these are difficult to articulate due to the multidimensional nature. However, **if you could possibly put together a few sentences, it would be greatly appreciated.**

As always, the magic of TMI is in the programs. Why? Because as we often say in Gateways, YOU are the magic! I love you and hope to see you soon in the physical or on V-8. Remember, SLII is scheduled for September 9th. Meanwhile, I wish you

Happy Journeys,

Franceen
